The RoDTEP scheme rebates the embedded taxes and it is calculated on FoB value of exports with value caps for certain HS codes.

For availing the scheme, an exporter is to make a declaration on the electronic shipping bill undertaking that it would abide by the scheme provisions, not claim rebate / remission with respect to any duties / taxes/ levies already exempted or for which remission is provided under other schemes and that it shall preserve documents for audit, etc

Once the System Directorate commence processing of RoDTEP, a scroll will be generated in the customs automated system. An electronic ledger shall be created for every IEC holder who is either the exporter having made a claim of RoDTEP against export of goods or is a recipient of duty credit by way of transfer.

The exporter has the option to generate e-scrip within one year of generation of scroll. If this option not availed by exporters the available credits of all scroll will be sent the electronic ledger of the said exporter as an e-scrip. An e-scrip shall be valid for one year only from its generation and if remain unutilized at the end of this period shall lapse.

E-scrip shall be freely transferable and it can be used for payment of Basic custom duty only on imports made through customs automated system.

Duty credit allowed under the RoDTEP scheme is subject to realization of sale proceeds within the period allowed by RBI.

The details of the ineligible export categories or sectors are mentioned in Table 1 of the RoDTEP notification.
