Be inspired and accelerate your business!

Next Year March 5-7, 2023, Paris.

Indian Pavillon:

The Indian Pavilion had 17 Exhibitors displaying products ranging from FRP composite & machinery , polyester resins, carbon fibre sheets, pultrusion plants, adhesive dispensing machines, nylon fibres, pipes & hoses, unsaturated polyester, resins vinyl ester resins gelcoats etc. This is one of the best shows the world to showcase the FRP composites. Plexconcil has been hosting the Indian Pavilion every year however this year 2023 there was an increase in space and the number of exhibitors.

The inputs received from the exhibitors were excellent in not only writing orders but were happy with the fixed meetings with the buyers which was possible through the JEC World buyer-seller app. The Pavilion was in Hall 5-quality and India Branding being appreciated by all the buyers to be much higher than the other country pavilions.

The exhibitor's catalog was printed and distributed to all the visitors at the show informing them about the products.

PLEXCONNECT 2023 Promotions

The Plexconnect 2023 was promoted effectively during the show by the Council's representative visiting potential exhibitors/buyers and inviting them to visit the

show. The Plexconnect and the activities of the Council was promoted at the Council's booth effectively.

Officials Meeting during the Show

The Embassy of India, Paris, France
